

COTTONWOOD
PRESS

TOPIC INDEX

The Cottonwood Press Index is just that— an index. Nothing fancy. Nothing extravagant. Just a practical, easy-to-use, alphabetical listing of the topics covered in the numerous (and need we say *excellent*) Cottonwood Press materials for the classroom.

It works like any other index. If it's 7:55 on Monday morning and you need something on commas, just look up "commas," and you'll find a listing, complete with page numbers, of every Cottonwood Press activity about commas. Find the appropriate Cottonwood book on your shelf, make a quick trip to the copy machine and you're all set. If you don't own the book, call 1-800-864-4297 and order it. No, you won't get it in time for that 8:00 class that starts in four minutes (we're quick, but not that quick), but you will get it within three to seven business days.

Better yet, plan ahead and use the index to select and order the Cottonwood Press books that include the topics you need to cover in your classroom over the next few months. The index makes it easy to find exactly what you need.
